

## Professor Dr. Ivan Assenov – his life and scientific works

Stefan Nikolov & Ekaterina Kozuharova

Department of Pharmacognosy and Botany, Faculty of Pharmacy,  
Medical University of Sofia, 2 Dunav St., 1000 Sofia, Bulgaria,  
e-mail: dean@pharmfac.acad.bg; ina@pharmfac.acad.bg

On 8<sup>th</sup> July 2004 the Bulgarian pharmaceutical and botanical community lost one of its most eminent members. Brilliant scientist and lecturer, Prof. Dr. Ivan Assenov has left us with an unforgettable memory in our hearts. He was a most important figure within the Faculty of Pharmacy, a former Head of the Department of Pharmacognosy and Botany, and Vice-Rector.

Professor Assenov was born in 1932 in the town of Dupnitsa in the foothills of the Rila Mountains. Between 1951–1956 he studied at the Faculty of Pharmacy, and subsequently in 1959 he obtained a second degree in Botany at the University of Sofia. He began lecturing straight away at both the University of Sofia and the Faculty of Pharmacy.

In 1981 Prof. Assenov gained his PhD entitled “*Pharmacognostic and chemo-taxonomical study of genus Geum L. within in the Bulgarian flora*”. From 1983 he worked as Associate Professor, and in 1991 was elected a full Professor. For fifteen years he was Head of the Department of Pharmacognosy. Between 1995 – 2000 he was Vice-Rector, responsible for the scientific activity of the Medical University of Sofia.

Those of us lucky enough to be taught by him will retain unforgettable memories about his wonderful teaching style and boundless knowledge. We shall also always remember the immensely enjoyable field excursions lead by Prof. Assenov. The dedication and quality of this work serves as a shining example for generations of students.

Prof. I. Assenov  
(1932 – 2004)

Professor Assenov’s research was focused on plant taxonomy, phytochemistry, floristics and chorology. He was author and co-author of many textbooks in pharmacognosy and botany, and of more than 170 scientific publications in national and international journals. The contribution of Prof. Assenov to one of the most important publications in Bulgarian botany, the “*Flora of PR Bulgaria*” edited by Acad. Daki Jordanov (1963–1995), is very important.

Professor Assenov also described several taxa new to science or made new combinations: *Alchemilla pawlowskii*

Assenov, *Persicaria mitis* (Schrank) Assenov, *P. salicifolia* (Brouss. ex Willd.) Assenov, *P. orientalis* (L) Assenov, and the Balkan endemic *Alyssoides bulgarica* (Sagor.) Assenov.

Professor Assenov spent much time researching the medicinal properties of Bulgarian plants, and their conservation. He is wrote or co-wrote the famous monographs, “*The herbs in each home*”, “*Phytotherapy and traditional medicine*”, and “*Healing animals with plants*” (all in Bulgarian). Some of these books have run to several editions, and the latter has been published in Germany.

Professor Assenov was both highly professional as well as profoundly knowledgeable. He was member and for some period Vice Chairman of the Specialised Scientific Council of Pharmacy with the Higher Attestation Commission, the Specialised Scientific Council of Botany and Mycology with the Higher Attestation Commission,

the Medical and Biological Commission with the Higher Attestation Commission, the Council of Faculty of Pharmacy, the Scientific Council of Botany with the Higher Attestation Commission, and the Expert Council for the Protection of Medicinal Plants. For a considerable time he was member of the Council of Pharmacy and the Commission of Medical Products. Professor Assenov participated in numerous international botanical expeditions and meetings, had many links with international universities and other bodies. He served on the Editorial Board, and, for a period, was editor-in-chief of the journal *Pharmacia*. He was also member of the Editorial Boards of the Annual of the University of Sofia "St. Kliment Ohridski" – book 2 Botany, and the international magazine *Phytologia Balcanica*.

### Publications of Prof. Dr Ivan Assenov: 1954–2006

- Боева, А., Дряновска-Нонинска, Л., Асенов, И.** 1954. Предварително съобщение за използването на шипковите шикалки като лекарство средство [Preliminary report for the medicinal use of the dog rose galls]. – *Фармация* [Pharmacy], **4**: 33-34 (in Bulgarian).
- Асенов, И., Боева, А.** 1955. Изследване за алкалоидно съдържание на някои диворастящи и културни растения срещани се в пределите на страната ни [Investigation of the alkaloid content of some wild and cultivated plants occurring on the territory of our country]. – *Фармация* [Pharmacy], **1**: 26-32 (in Bulgarian).
- Асенов, И.** 1961. Кратки флористични съобщения [Short floristic reports]. – *Изв. Бот. Инст.* [Izv. Bot. Inst. (Sofia)], **8**: 270-271 (in Bulgarian).
