Received: May 10, 2012 ▷ Accepted: October 25, 2012

**Abstract.** After publication of the *Catalogue of the Cenozoic plants of Bulgaria*, researches into the fossil flora have continued unfailingly. Consequently, 24 new taxa have been registered for Bulgaria and over 20 of the so far known ones have been revised. Four new local paleofloras were studied and three old collections were supplemented with new fossil material. New data have been obtained on the geographical and stratigraphical distribution of the already established taxa. Furthermore, three overlooked publications were found, the data from which were not included in the catalogue, as well as some inaccuracies and omissions in the text. All this served as a precondition to systematize the new data and the revisions and corrections made to the Catalogue.

**Key words:** Bulgaria, Cenozoic, cuticle, geographical locality, fossil macroflora, stratigraphical range

## Introduction

The here presented Addendum and Corrigendum to the *Catalogue of the Cenozoic plants of Bulgaria (Eocene to Pliocene)* (Palamarev & al. 2005) comprises information from the paleobotanical studies carried out in Bulgaria during the publication of the catalogue and after it. Its daily use as a valuable source of paleobotanical information has inevitably disclosed some omissions and inaccuracies in the text, which we have striven to remedy here.

The new locations studied during the publication of the catalogue or after that are Varshtets (Palamarev 2004), Golyam Manastir (Palamarev & Bozukov 2004), and Valche Pole and Zlatoustovo (Bozukov & al. 2008). Data from these studies, as well as from the studies of the additional materials from the already known locations near Dospej (Bozukov & al. 2009), Gaber (Bozukov & al. 2011),

and Ognyanovo (Palamarev & Tsenov 2004; Tsenov 2010) are presented here.

Three overlooked studies by Hadžiev (1962), Hadžiev & Mädel (1962), Uzunova & Ivanov (1996) were found out and data from them, as well as the revisions made by Bozukov (2008, 2011) and Bozukov & al. (2012) are also included here.

Plate 1 features some author's photographs of type samples omitted in the catalogue. The photographs are of *Stewartia stefanovii* Palam. & Bozukov (Pl. I, Fig. 1); *Symplocos brežanii* Palam. (Pl. I, Fig. 2); *Hydrangea palaeopirinica* Palam. (Pl. I, Fig. 3); *Eostangeria ružinciana* (Palam. & al.) Palam. & Uzunova (Pl. I, Figs 4-5); *Crataegus integrifolia* Palam. (Pl. I, Fig. 6); *Celastrophyllum mirabile* Palam. & Petkova (Pl. I, Fig. 7); and *Platycarya palaeostrobilaceae* Palam. (Pl. I, Fig. 8).

The Addendum and Corrigendum to the Catalogue has the following structure:

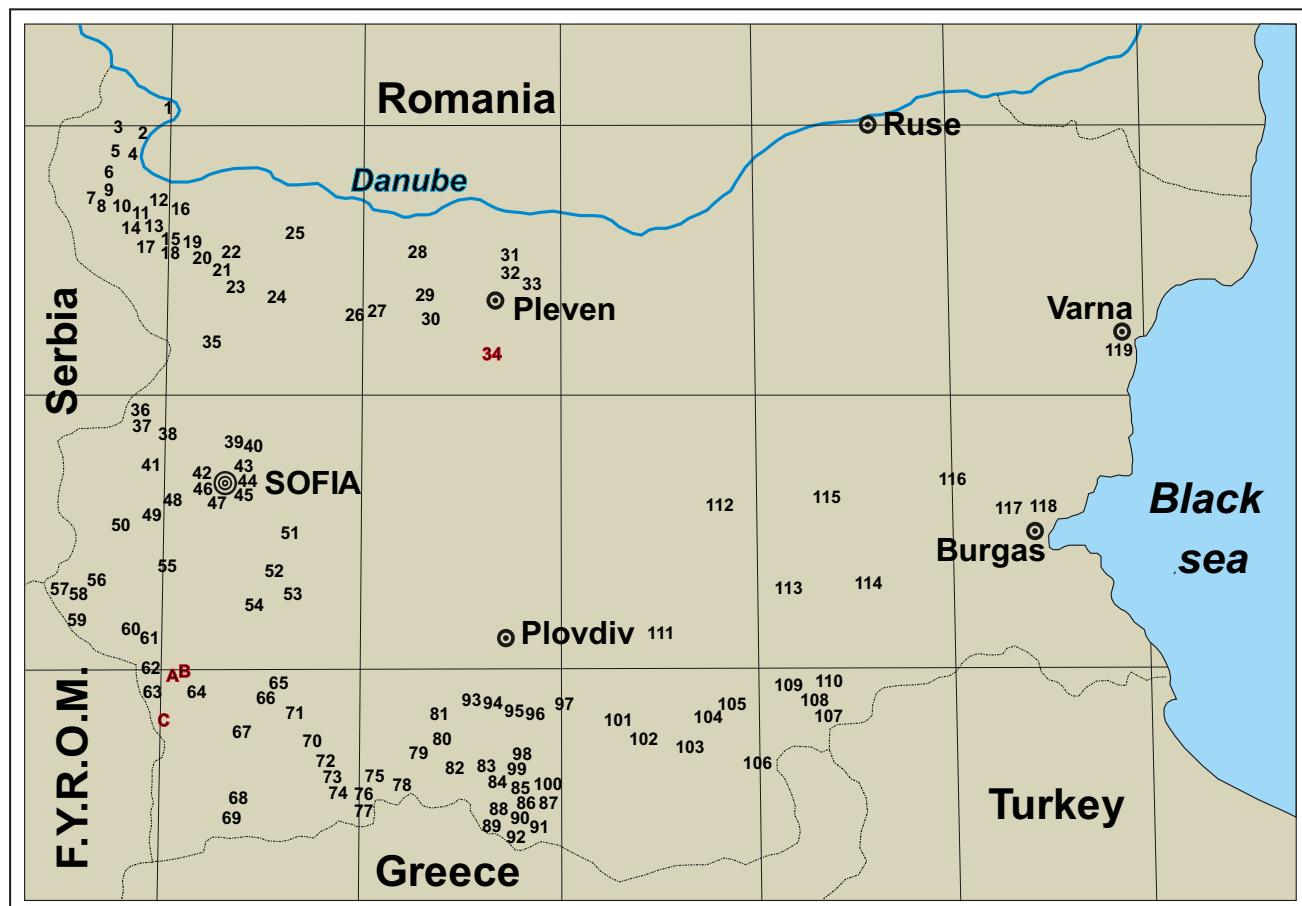

- the species are grouped according to the systematic divisions to which they belong;
- within the framework of divisions, the taxa are arranged according to the genera and species, in alphabetical order;
- each added new registered species is supplied with a citation block which includes citation of the accepted name, basionym, the more important synonyms in terms of nomenclature, and all Bulgarian sources in which it has been described or recorded;
- under the heading **Material**, the type of the fossil organ is given used to determine the species: Li = leaf imprints ; Ca = carpoid (or diaspores) – in that category fossil megasporites, seeds, fruits, cones (strobiles), and oogonia of stonewort algae have been included; Cu = cuticles (epidermal structure), including phytoleims, as well as dispersed cuticles; Wo = wood. In an insignificant number of cases, besides these three basic fossil categories, the type of the fossil part is also given;
- under the heading **Collection**, the abbreviation IBER (BAS) stands for the Institute of Biodiversity and Ecosystem Research, Department of Plant and Fungal Diversity and Resources, Palaeobotany and Palynology Division, Bulgarian Academy of Sciences. Whenever the authors have not pointed out in which collection the fossil samples are stored, they are marked as “unknown”;
- each added new registered species is listed by the name of its locality; the lithostratigraphic unit of origin of the fossils; and the chronostratigraphic range of the flora-bearing sediments. As that range is not always exactly dated, the most probable interval is given to which the flora-bearing sediments belong. *Glossary of the Officially Accepted Lithostratigraphic units in Bulgaria (1882-1992)* (Tenchov 1993) has been used to determine to what lithostratigraphic units these sediments belonged, while the units published after 1992 are referred to the corresponding geological literature of the last decade of the 20<sup>th</sup> century;

- in a number of cases a revision has been carried out, either on the basis of the original fossil materials, or of photographic illustration of the originals. The results of the revision are featured under the heading **Rev.** by the names of the corresponding authors;
- an insignificant number of the taxa have been revised during the final stages of the catalogue compilation and then the name of the author is supplemented with “*hoc loco*”;
- the names of the taxa whose taxonomic status has been changed are listed only in “*italic*” and the correct names in “**bold**” and “*italic*”;
- the generic names of the taxa with disputable systematic position are given in inverted commas.
- the names of Bulgarian locations and lithostratigraphic units in the Addendum and Corrigendum are transliterated into English according to the adopted Transliteration Act (2009);
- the names of all registered species are written in Latin, according to the rules, while in the citation blocks they are given according to the literary source.
- whenever a text to a species already published in the Catalogue has to be only supplemented or corrected, only the new or corrected data are written under the name of the species.
- whenever a text in the Catalogue has proved unnecessary, it is supplied with a note that it should be omitted.

The listing of the authors' team reflects participation in the compilation of the Addendum and Corrigendum of the catalogue.

V. Bozukov

**Acknowledgements.** The authors are grateful to Dr. A. Petrova (Sofia) for her support during the preparation of the manuscript and to Dr. M. Dolezych (Dresden) and Dr. J. Sakala (Prague) for their help in improving the fossil wood taxonomy.

1, Koshava; 2, Vidin; 3, Bela Rada; 4, Sinagovtsi; 5, Milchina Laka; 6, Gramada; 7, Shishmanovo; 8, Tolovitsa; 9, Makresh; 10, Kladorub-Ostrokaptsi; 11, Dalgo Pole; 12, Vodnyantsi; 13, Karbintsi; 14, Medovnitsa; 15, Belo Pole; 16, Drenovets; 17, Ruzhintsi; 18, Cherno Pole; 19, Smirnenski; 20, Slavotin; 21, Studeno Buche; 22, Gabrovnitsa; 23, Montana; 24, Krivodol; 25, Hairedin; 26, Gabare; 27, Lepitsa; 28, Staverts; 29, Pelovo; 30, Telish; 31, Brushlyanitsa; 32, Koilovtsi; 33, Slavyanovo; 35, Varshtets; 36, Hrabursko; 37, Gaber; 38, Balsha; 39, Novi Iskar; 40, Katina; 41, Slakovtsi; 42, Bankya; 43, Podgumer; 44, Operata; 45, Lozenets; 46, Zemlyane; 47, Bistritsa; 48, Pernik; 49, Kopanitsa; 50, Zhedna; 51, Chukurovo; 52, Samokov; 53, Borovets; 54, Dospei; 55, Bobovdol; 56, Nikolichevtsi; 57, Bukovska mahala; 58, Dolno Selo; 59, Gyueshevo; 60, Vaksevo; 61, Boboshevo; 62, Logodash; 63, Gabrovo; 64, Oranovo-Simitli; 65, Belitsa; 66, Razlog; 67, Brezhani; 68, Melnik; 69, Marino Pole; 70, Bukovo; 71, Eleshnitsa; 72, Baldevo; 73, Ognyanovo; 74, Garmen; 75, Satovcha; 76, Valkosel; 77, Slashten; 78, Barutin; 79, Borino-Teshel; 80, Devin; 81, Selcha; 82, Mugla; 83, Stikul; 84, Smolyan; 85, Ravnishta; 86, Dolno Fatovo; 87, Polkovnik Serafimovo; 88, Gadevitsa; 89, Gozdyuvksa Mahala; 90, Laga; 91, Palovska Cheshma; 92, Plovdivtsi; 93, Orehovo; 94, Hvoina; 95, Pavelsko; 96, Braikovitsa; 97, Oreshets; 98, Momchilovci; 99, Levochevo-Pisanitsa; 100, Ustovo-Strazha; 101, Angel Voivoda; 102, Pchelarovo; 103, Perperek; 104, Gorno Voivodino; 105, Tsareva Polyana; 106, Valche Pole; 107, Raikova Mogila; 108, Pastrogor; 109, Georgi Dobrev; 110, Levka; 111, Merichleri; 112, Nikolaev; 113, Troyanovo; 114, Golyam Manastir; 115, Hadzhi Dimitar; 116, Planinitsa; 117, Balgarovo; 118, Rudnik; 119, Obrochishte.

**Omitted localities:** A, Leshko; B, Padesch; C, Suhostrel. Locality 34, Kalenik, must be omitted.

## Plate I.

**Figs 1-8.** Photographs of fossil species types:

1. *Stewartia stefanovii*, Sat-1538B ( $\times 1$ ); 2. *Symplocos brežanii*, B-61 ( $\times 1$ ); 3. *Hydrangea palaeopirinica*, B-107 ( $\times 1$ ); 4. *Eostangeria ružinciana*, R-3518 ( $\times 1$ ); 5. *E. ružinciana*, adaxial cuticle; 6. *Crataegus integrifolia*, B-62 ( $\times 1$ ); 7. *Celastrophylgium mirabile*, Br-221 ( $\times 1$ ); 8. *Platycarya palaeostrobilaceae*, B-4192 ( $\times 1$ ).

## POLYPODIOPHYTA

*BOTRYCHIUM* Sw. – OPHIOGLOSSACEAE

***Botrychium aff. underwoodianum* Maxon**

2010. Bozukov, V., Tsenov, B. & Vatsev, M., p. 889, Pl. 1, Figs 2-6.

**Material:** Li.

**Location and stratigraphical range:** Dospei (bituminous schist formation, Upper Oligocene – Lower Miocene).

**Collection:** IBER (BAS).

**Location and stratigraphical range:** West Maritsa basin – Merichleri (Merichleri Limestone Formation, Oligocene).

*DAVALLIA* Sm. – DAVALLIACEAE

***Davallia* sp.**

2008. Bozukov, p. 5.

1932. *Trichomanes* sp.; Stefanov & Jordanov, p. 88, Figs-text 1-3.

1935. Stefanov & Jordanov, p. 7.

**Material:** Li, Spores.

**Location and stratigraphical range:** Sofia Basin – Podgumer (Novi Iskar Formation, Upper Pontian – Lower Dacian).

**Collection:** Unknown.

*PTERIS* L. – PTERIDACEAE

***Pteris* parschlugiana** Unger

1932. Konjaroff, p. 54, Pl. 13, Figs 2-4, p. 171, Pl. 57, Fig. 2; p. 244, Pl. 73, Fig. 1.

***Pteris* sp.**

1932. Konjaroff, p. 54, Pl. 13, Figs 5-6; p. 171, Pl. 57, Fig. 1.

**Material:** Li.

**Location and stratigraphical range:** Pernik (coal-bearing formation, Upper Oligocene); Chukurovo (coal-bearing formation, Middle Miocene).

**Collection:** Unknown

***Pteris* sp.**

1932. Konjaroff, p. 222, Pl. 64, Fig. 1.

**Rev.:** *Osmunda parschlugiana* (Unger) Andr.; Bozukov, hoc loco.

*OSMUNDA* L. – OSMUNDACEAE

***Osmunda* parschlugiana (Unger) Andr.**

1932. *Pteris parschlugiana* Unger, Konjaroff, p. 54, Pl. 13, Figs 2-4; p. 171, Pl. 57, Fig. 2; p. 244, Pl. 73, Fig. 1.

1932. *Pteris* sp., Konjaroff, p. 222, Pl. 64, Fig. 1.

*TRICHOMANES* L. – HYMENOPHYLLACEAE

***Trichomanes* sp.**

1932. Stefanov & Jordanov, p. 88, Figs-text 1-3.

1935. Stefanov & Jordanov, p. 7.

**Collection:** IBER (BAS).

*ANDROMEDA* L. – ERICACEAE

***Andromeda tremula* Heer**

1967. Palamarev, p. 94.

**Location and stratigraphical range:** Brezhani (Gore-shtitsa Formation, Lower Oligocene).

*APOCYNOPHYLLUM* Unger – APOCYNACEAE

***Apocynophyllum firma* (Heer) Sveshnik. & Budantzev**

1859. *Acerates firma* Heer, p. 21, Pl. 104, Fig. 9.

1964. Sveshnikova & Budantzev in Budantzev & Sveshnikova, p. 107, Pl. 7, Figs 12-14

***Apocynophyllum nerifolium* Heer**

2008. Bozukov & al., p. 177, Pl. 4, Fig. 4.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

*ARBUTUS* L. – ERICACEAE

***Arbutus guriensis* Usnadze**

1999b. Bozukov, p. 52, Pl. 3, Fig. 4.

2004. Palamarev & Bozukov, p. 136, Pl. 3, Fig. 1.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

*BERCHEMIA* Neck. ex DC. – RHAMNACEAE

***Berchemia multinervis* (A. Braun) Heer**

2008. Bozukov & al., p. 177, Pl. 5, Fig. 5.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene); Chukurovo (coal-bearing formation, Middle Miocene).

*BETULA* L. – BETULACEAE

***Betula attenuata* Göpp.**

1932. Konjarov, p. 54, Pl. 19, Fig. 7.

**Rev.:** *Alnus suborientalis* Czeczott & Skirg.; Bozukov, *hoc loco*.

***Betula subpubescens* Göpp.**

2008. Bozukov & al., p. 175, Pl. 2, Fig. 4.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

*BUMELIA* Sw. – SAPOTACEAE

***Bumelia minor* (Unger) Unger**

1988. Černjavska & al., p. 30.

**Location and stratigraphical range:** Pavelsko (Pavelsko sandy argillaceous formation, Upper Eocene – Lower Oligocene).

***Bumelia* sp.**

1961. Palamarev, p. 188, Fig.-text 25.

**Material:** Li.

**Location and stratigraphical range:** Borovets (coal-bearing formation, Upper Oligocene).

**Collection:** IBER (BAS).

*CARPINUS* L. – BETULACEAE

***Carpinus betulus* L.**

1934. Stefanov & Jordanov, p. 15, Pl. 3, Fig. 10; Pl. 5, Figs 7-8.

1935. Stefanov & Jordanov, p. 36, Fig. 36; Pl. 8, Fig. 5.

1956. Kitanov & Nikolova, p. 92, Fig. 6; Pl. 1, Fig. 4; Pl. 2, Figs 1-3.

**Material:** Ca.

**Location and stratigraphical range:** Sofia Basin – Novi Iskar, Podgumer (Novi Iskar Formation, Upper Pontian – Lower Dacian) – Lozenets (Lozenets Formation, Romanian).

**Collection:** Unknown.

***Carpinus betulus* L. foss.**

1982. Kitanov, p. 37.

1988. Palamarev & Kitanov, p. 193, Pl. 7, Figs. 10-12; Pl. 8, Fig. 7.

2011. Bozukov & al., p. 9, Pl. 2, Fig. 9.

**Material:** Ca.

**Location and stratigraphical range:** Garmen (Nevrokop Formation, Upper Pontian – Lower Dacian); Beli Breg Coal Basin – Gaber (Novi Iskar Formation, Upper Pontian – Lower Dacian); Sofia Basin – Zemlyane (Lozenets Formation, Romanian). The following localities must be omitted: Pelovo, Stavertsyi (Krivodol Formation – Volhynian).

***Carpinus grandis* Unger emend. Heer**

1932. Konjarov, p. 54, pars Pl. 20, Figs 2, 4 (non Fig. 3); p. 98, Pl. 26, Figs 3-5; p. 129, Pl. 40, Fig. 6; p. 173, Pl. 58, Fig. 4; Pl. 59, Fig. 1; p. 244, Pl. 73, Fig. 4.

2004. Palamarev & Bozukov, p. 135, Pl. 5, Fig. 3.

2008. Bozukov & al., p. 175, Pl. 2, Fig. 4.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene); Chukurovo (coal-bearing formation, Middle Miocene); Golyam Manastir (Elhovo Formation, Pontian).

***Carpinus* sp.**

1932. Konjarov, p. 166, Pl. 53, Fig. 6.

**Material:** Ca.

**Location and stratigraphical range:** Sofia Basin – Novi Iskar (Novi Iskar Formation, Upper Pontian – Lower Dacian).

**Collection:** Unknown.

*CARYA* Nutt. – JUGLANDACEAE

***Carya denticulata* (C.O. Weber) Iljinsk.**

2004. Palamarev & Bozukov, p. 135, Pl. 4, Fig. 5.

1964a. Palamarev, p. 15.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

*CASSIOPHYLLUM* Geyl. – FABACEAE

***Cassiophyllum berenices* (Unger) Kräuse**

1961. Palamarev, p. 185, Pl. 8, Fig. 1; Fig.-text 18.

1988. Černjavska & al., p. 31.

**Location and stratigraphical range:** Pavelsko (Pavelsko sandy argillaceous formation, Upper Eocene–Lower Oligocene); Borovets (coal-bearing formation, Upper Oligocene).

*CASTANEA* Mill. – FAGACEAE

*Castanea atavia* Unger

1932. Konjarov, p. 125, Pl. 32, Fig. 2.

1964a. Palamarev, p. 18.

**Rev.:** *Quercus pliovariabilis* Kolak.; Bozukov, hoc loco.

***Castanea sativa* Mill. foss.**

1932. *C. atavia* Unger; Konjarov, p. 125, Pl. 32, Fig. 2; p. 166, Pl. 53, Fig. 4.

1964a. Palamarev, p. 18.

**Location and stratigraphical range:** Chukurovo (coal-bearing formation, Middle Miocene).

*CASTANOPSIS* (D. Don) Spach – FAGACEAE

*Castanopsis pliovariabilis* (Kolak.) Kolak.

1999a. Bozukov, p. 4, Pl. 1, Fig. 5.

**Rev.:** 2004. *Quercus pliovariabilis* Kolak.; Palamarev & Bozukov, p. 134, Pl. 3, Fig. 4.

*CEDRELA* P. Browne – MELIACEAE

***Cedrela attica* (Unger) Palam. & Petkova**

2008. Bozukov & al., p. 176, Pl. 3, Fig. 6.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

*CELASTRUS* L. – CELASTRACEAE

***Celastrus oenningensis* Wonnacott**

2008. Bozukov & al., p. 177, Pl. 4, Fig. 5.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

*CELTIS* L. – ULMACEAE

***Celtis praebalcanica* Palam.**

2004. Palamarev, p. 4, Pl. 1, Fig. 1-3.

**Material:** Ca.

**Location and stratigraphical range:** Varshtets (Limestone tuff, Middle Villafranchian).

**Collection:** IBER (BAS).

*CERATOPHYLLUM* L. – CERATOPHYLLACEAE

*Ceratophyllum demersum* L. foss.

2010. *C. demersum* L. foss., Tsenov, p. 742, Pl. 1, Figs. 4-5.

**Rev.:** *C. submersum* L. foss.; Bozukov & al. (2012).

***Ceratophyllum protanaiticum* (P. Nikitin) Dorof.**

**Location and stratigraphical range:** Melnik (Kalmanska Formation, Lower Pontian).

***Ceratophyllum schrotzburgense* Hantke**

2012. Bozukov & al., p. 988, Pl. 2, Fig. 2.

1966. *C. submersum* L. foss.; Petkova & Kitanov, p. 10, Pl. 7, Fig. 4.

The following text must be omitted: 1982. Palamarev, p. 10, Pl. 3, Fig. 9.

**Location and stratigraphical range:**

The following text must be omitted: Melnik (Kalimanska Formation, Lower Pontian).

***Ceratophyllum submersum* L. foss.**

1982. Palamarev, p. 10, Pl. 3, Fig. 9.

2012. Bozukov & al., p. 988, Pl. 1, Fig. 4; Pl. 2, Figs 1, 3-4.

2010. *C. demersum* L. foss., Tsenov, p. 742, Pl. 1, Figs. 4-5.

2011. *Potamogeton pectinatus* L. foss.; Bozukov & al., p. 12, Pl. 3, Figs 8-9.

**Material:** Ca, Stem with leaves.

**Location and stratigraphical range:** Melnik (Kalmanska Formation, Lower Pontian), Ognyanovo (Baldevo Formation, Pontian); Beli Breg Coal Basin – Gaber (Novi Iskar Formation, Upper Pontian – Lower Dacian).

**Collection:** IBER (BAS).

**Note:** Palamarev & Petkova (1987) incorrectly revised

*C. submersum* published by Palamarev (1982, p. 10, Pl. 3, Fig. 9.) as *C. schrotzburgense*.

*CERCIDIPHYLLUM* Siebold & Zucc. – CERCIDIPHYLLACEAE

***Cercidiphyllum crenatum* (Unger) R.W. Brown**

1932. Sp. indeterminata; Konjaroff, p. 239, Pl. 72, Figs 5-6.

**Location and stratigraphical range:** Smolyan (coal-bearing formation, Lower Oligocene).

*CINNAMOMUM* Blume – LAURACEAE

***Cinnamomum polymorphum* A. Braun**

1932. Konjarov, Pl. 21, Figs 3-5; p. 167, Pl. 56, Fig. 7;  
p. 173, Pl. 58, Fig. 2.

1982. Kitanov, p. 37, Pl. 1, Fig. 3.

***Cinnamomum spectabile* Heer**

1932. Konjaroff, p. 54, Pl. 22, Fig. 1.

1966. Palamarev & Petkova, p. 57.

*CORNUS* L. s. l. – CORNACEAE

***Cornus rhamnifolia* O. Weber**

1852. Weber, p. 192, Pl. 21, Fig. 8.

1961. Palamarev, p. 187, Pl. 8, Fig. 3; Fig.-text 23.

**Material:** Li.

**Location and stratigraphical range:** Borovets (coal-bearing formation, Upper Oligocene).

**Collection:** IBER (BAS).

*CORYLUS* L. – BETULACEAE

***Corylus avellana* L. foss.**

**Material:** Ca.

The following text must be omitted: Li.

*COTINUS* Mill. – ANACARDIACEAE

***Cotinus orbiculatus* (Heer) Budantzev**

1982. *C. coggygria* (L.) Scop. foss.; Kitanov, p. 37.

**Location and stratigraphical range:** Sofia Basin – Zemlyane (Lozenets Formation, Romanian).

*CRATAEGUS* L. – ROSACEAE

***Crataegus pentagyna* Waldst. & Kit. ex Willd. foss.**

2004. Palamarev, p. 8, pl. 1, fig. 4-6.

**Material:** Ca.

**Location and stratigraphical range:** Varshtets (Limestone tuff, Middle Villafranchian).

**Collection:** IBER (BAS).

*CYCLOBALANOPSIS* Oerst – FAGACEAE

***Cyclobalanopsis kryshtofovichii* Kolak.**

1964b. Palamarev, p. 130, Pl. 1, Fig. 1; Pl. 2, Fig. 4.

1967. Palamarev, p. 93.

**Rev.:** 2004. *Quercus abchasica* Kolak.; Palamarev & Tsenov, p. 150, Pl. 2, Fig. 4.

*CYCLOCARYA* Iljinsk. – JUGLANDACEAE

***Cyclocarya aschutassica* Iljinskaja**

1994. Iljinskaja, p. 44, Pl. 7, Figs 1-5; Pl. 8, Fig. 4; Pl. 9, Fig. 1-3; Fig.-text 35.

1988. *Cyclocarya cyclocarpa* (Schlecht.) Knobloch; Černjavska & al., p. 30.

**Material:** Li.

**Location and stratigraphical range:** Pavelsko (Pavelsko sandy argillaceous formation, Upper Eocene – Lower Oligocene).

**Collection:** IBER (BAS).

*Cyclocarya cyclocarpa* (Schlecht.) Knobloch

1988. Černjavska & al., p. 30.

**Rev.:** *Cyclocarya aschutassica* Iljinskaja; Palamarev, in colect.

*DALBERGIA* L. – FABACEAE

***Dalbergia bella* Heer**

1988. Černjavska & al., p. 31.

**Location and stratigraphical range:** Pavelsko (Pavelsko sandy argillaceous formation, Upper Eocene – Lower Oligocene).

***Dalbergia rectinervis* Ettingsh.**

2009. Bozukov & al., p. 274, Pl. 2, Fig. 4.

**Location and stratigraphical range:** Dospej (bituminous schist formation, Upper Oligocene-Lower Miocene).

*DAPHNOGENE* Unger – LAURACEAE

***Daphnogene bilinica* (Unger) Kvaček & Knobloch**

1975. Palamarev & Petkova, p. 205.

2008. Bozukov & al., p. 174, Pl. 1, Fig. 4.

1982. *Cinnamomum polymorphum* A. Braun; Kitanov, p. 37, Pl. 1, Fig. 3.

**Location and stratigraphical range:** Padesh (Padesh Formation, Upper Eocene – Lower Oligocene); Valche Pole, Zlatoustovo (Valche Pole molasse formation, Upper Oligocene – Lower Miocene); Sofia Basin – Zemlyane (Lozenets Formation, Romanian).

***Daphnogene cinnamomea* (Rossm.) Knobloch**

2008. Bozukov & al., p. 174, Pl. 1, Fig. 4.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

***Daphnogene cinnamomifolia* (Brongn.) Unger**

2008. Bozukov & al., p. 174, Pl. 1, Fig. 3.

**Location and stratigraphical range:** Valche Pole (Valche Pole Molasse formation, Upper Oligocene – Lower Miocene).

***Daphnogene lanceolata* Unger**

2008. Bozukov & al., p. 174, Pl. 1, Fig. 6.

**Location and stratigraphical range:** Valche Pole, Zlatoustovo (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

***Daphnogene spectabilis* (Heer) Knobloch**

2008. Bozukov & al., p. 174, Pl. 2, Fig. 3.

1856. *Cinnamomum spectabile* Heer, p. 91, Pl. 96, Figs 1-8.

1932. Konjaroff, p. 54, Pl. 22, Fig. 1.

1966. Palamarev & Petkova, p. 57.

**Location and stratigraphical range:** Belitsa (sandstone and sandy-argillaceous formations, Lower Oligocene); Pernik (coal-bearing formation, Upper Oligocene); Valche Pole (Valche Pole Molasse formation, Upper Oligocene – Lower Miocene).

***Daphnogene ungeri* Heer**

2008. Bozukov & al., p. 174, Pl. 4, Fig. 6.

**Location and stratigraphical range:** Valche Pole (Valche Pole Molasse formation, Upper Oligocene – Lower Miocene).

*DIOSPYROS* L. – EBENACEAE

***Diospyros anceps* Heer**

2008. Bozukov & al., p. 176, Pl. 4, Fig. 8.

1961. *D. brachysepala* A. Braun; Palamarev, p. 188, Pl. 7, Fig. 4.

**Location and stratigraphical range:** Borovets (coal-bearing formation, Upper Oligocene); Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

*Diospyros brachysepala* A. Braun

1961. Palamarev, p. 188, Pl. 7, Fig. 4.

**Rev.:** *Diospyros anceps* Heer; Bozukov, hoc loco.

*DRYOPHYLLUM* Debey – FAGACEAE

***Dryophyllum dewalquei* Saporta & Marion**

2008. Bozukov & al., p. 175, Pl. 2, Fig. 6.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

*ENGELHARDIA* Lesch. ex Blume – JUGLANDACEAE

***Engelhardia orsbergensis* (P. Wessel & C.O. Weber) Jähnichen, Mai & H. Walther**

1988. Černjavska & al., p. 30.

2008. Bozukov & al., p. 176, Pl. 2, Fig. 5.

2009. Bozukov & al., p. 274, Pl. 2, Fig. 8.

**Location and stratigraphical range:** Pavelsko (Pavelsko sandy argillaceous formation, Upper Eocene – Lower Oligocene); Dospei (bituminous schist formation, Upper Oligocene-Lower Miocene); Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

*EOTRIGONOBALANUS* H. Walther & Kvaček – FAGACEAE

***Eotrigonobalanus furcinervis* (Rossm.) H. Walther & Kvaček**

1932. *Quercus furcinervis* (Rossm.) Unger; Konjarov, p. 129, Pl. 42, Figs 1-4; Pl. 46, Figs 1-3; p. 222, Pl. 66, Figs 1-3.

1961. Palamarev, p. 181, Pl. 3, Figs 2-4.

*EUCALYPTUS* L'Hér. – MYRTACEAE

**"*Eucalyptus*" *oceania* Unger**

1932. Konjarov, p. 129, Pl. 43, Figs 5-5a.

**Rev.:** 2011. *Periploca* cf. *kryshtofovichii* Kornil.; Bozukov, p. 42, Pl. 1, Fig. 9.

*EUGENIA* L. – MYRTACEAE

***Eugenia apollinis* Unger**

1850. Unger, p. 52, Pl. 35, Figs 3-18.

2009. Bozukov & al., p. 274, Pl. 2, Fig. 1.

**Material:** Li.

**Location and stratigraphical range:** Dospei (bituminous schist formation, Upper Oligocene-Lower Miocene).

**Collection:** IBER (BAS).

***Eugenia haeringiana* Unger**

1850. Unger, p. 52, Pl. 35, Fig. 19.

1961. Palamarev, p. 187, Pl. 6, Fig. 2; Fig.-text 22.  
2009. Bozukov & al., p. 274, Pl. 2, Fig. 2.

**Material:** Li.

**Location and stratigraphical range:** Borovets (coal-bearing formation, Upper Oligocene); Dospej (bituminous schist formation, Upper Oligocene-Lower Miocene).

**Collection:** IBER (BAS).

***Eugenia splendens* Petrescu, G. Margarit & M. Margarit**

1994. Palamarev & Petkova, p. 35, Pl. 3, Fig. 5, p.p., ex-cl. Pl. 1, Fig. 3 = *Periploca* cf. *kryshtofovichii* Kornil.

*EUONYMUS* L. – CELASTRACEAE

***Euonymus* aff. *japonicus* Thunb.**

2011. Bozukov & al., p. 9, Pl. 3, Figs 2-3.

**Material:** Li.

**Location and stratigraphical range:** Beli Breg Coal Basin – Gaber (Novi Iskar Formation, Upper Pontian – Lower Dacian).

**Collection:** IBER (BAS).

*EURYA* Thunb. – THEACEAE

***Eurya* aff. *acuminatissima* Merr. & Chun**

2008. Bozukov & al., p. 176, Pl. 4, Fig. 3.

**Location and stratigraphical range:** Zlatoustovo (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

*FAGUS* L. – FAGACEAE

***Fagus* attenuata** Göpp.

1988. Palamarev & Kitanov, p. 187, Pl. 4, Fig. 11.

**Rev.:** *Fagus silesiaca* H. Walther & Zastawniak; Bozukov hoc loco.

**Location and stratigraphical range:** Beli Breg Coal Basin – Gaber (Novi Iskar Formation, Upper Pontian – Lower Dacian).

***Myrica onocleaefolia* Andr.**

1962. Palamarev, p. 17, Fig.-text 1B.

***Myrica* sp.**

1932. Konjarov, p. 239, Pl. 72, Fig. 7.

**Material:** Li.

**Location and stratigraphical range:** Smolyan (coal-bearing formation, Lower Oligocene).

**Collection:** Unknown.

NEOLITSEA (Benth.) Merrill – LAURACEAE

***Neolitsea palaeosericea* Takht.**

2008. Bozukov & al., p. 174, Pl. 2, Fig. 1.

**Location and stratigraphical range:** Valche Pole (Valche Pole Molasse formation, Upper Oligocene – Lower Miocene).

The following localities must be omitted: Polkovnik Serafimovo (Serafimovo Formation, Lower Eocene-Lower Oligocene); Strazha (Smolyan Formation, Upper Eocene-Lower Oligocene).

NERIUM L. – APOCYNACEAE

***Nerium oleander* L. foss.**

2011. Bozukov & al., p. 12, Pl. 3, Fig. 7.

**Location and stratigraphical range:** Beli Breg Coal Basin – Gaber (Novi Iskar Formation, Upper Pontian – Lower Dacian).

NYSSA L. – NYSSACEAE

***Nyssa disseminata* (Ludw.) Kirchh.**

**Material:** Ca.

The following text must be omitted: Li.

***Nyssa* sp.**

1961. Palamarev, p. 186, Pl. 7, Figs 1-2.

**Material:** Ca.

**Location and stratigraphical range:** Borovets (coal-bearing formation, Upper Oligocene).

**Collection:** IBER (BAS).

OCOTEA Aubl. – LAURACEAE

***Ocotea euxina* (Kolak.) Imchan.**

1974. Imchanitzkaja in Takchtajan, p. 24, Pl. 7, Fig. 6; Pl. 9, Fig. 6.

2004. Palamarev & Bozukov, p. 133, Pl. 2, Fig. 5.

1957. *Nectandra euxina* Kolak.; Kolakovsky, p. 273, Pl. 15, fig. 4,

**Material:** Li.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

**Collection:** IBER (BAS).

***Ocotea heeri* (Gaudin) Takht.**

2004. Palamarev & Bozukov, p. 134, Pl. 2, Fig. 4.

2008. Bozukov & al., p. 174, Pl. 2, Fig. 2.

**Location and stratigraphical range:** Valche Pole (Valche Pole Molasse formation, Upper Oligocene – Lower Miocene); Golyam Manastir (Elhovo Formation, Pontian).

*OLEA* L. – OLEACEAE

***Olea notii* Unger**

1867. Unger, p. 62, Pl. 10, Figs 1-12.

*OMALANTHUS* A. Juss. – EUPHORBIACEAE

***Omalianthus paraeuxinus* Palam.**

1973. *Omalianthus paraeuxinus* Palamarev, p. 86, Pl. 2, Figs 19-20; Pl. 3, Figs 1, 3.

*PALIURUS* Mill. – RHAMNACEAE

***Paliurus ovoides* (Göpp.) Heer**

2004. *Paliurus spina-christi* Mill. foss., Palamarev & Bozukov, p. 137, Pl. 1, Fig. 6; Pl. 6, Fig. 4.

**Material:** Ca.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

*Paliurus spina-christi* Mill. foss.

2004. Palamarev & Bozukov, p. 137, Pl. 1, Fig. 6; Pl. 6, Fig. 4.

**Rev.:** *Paliurus ovoides* (Göpp.) Heer; Bozukov, hoc loco.

*PARROTIA* C.A. Mey. – HAMAMELIDACEAE

***Parrotia pristina* (Ettingsh.) Stur**

2004. Palamarev & Bozukov, p. 137, Pl. 4, Fig. 1.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

*PERIPLOCA* L. – ASCLEPIADACEAE

***Periploca cf. kryshtofovichii* Kornil.**

2008. Bozukov & al., p. 177, Pl. 4, Fig. 7.

1932. “*Eucalyptus*” *oceania* Unger, Konjarov, p. 129, Pl. 43, Figs 5-5a.

1994. *Eugenia splendens* Petrescu & al., Palamarev & Petkova, p.p., p. 35, Pl. 1, Fig. 3.

**Location and stratigraphical range:** Suhostrel (Suhostrel Formation, Upper Eocene); Orehovo (Pavelsko sandy argillaceous Formation, Upper Eocene – Lower Oligocene); Dospej (bituminous schist formation, Upper Oligocene-Lower Miocene); Zlatoustovo (Valche Pole Molasse formation, Upper Oligocene – Lower Miocene).

*PERSEA* Mill. – LAURACEAE

***Persea braunii* Heer**

2008. Bozukov & al., p. 174, Pl. 3, Fig. 4.

**Location and stratigraphical range:** Valche Pole (Valche Pole Molasse formation, Upper Oligocene – Lower Miocene).

***Persea palaeomorpha* Saporta & Marion**

2009. Bozukov & al., p. 274, Pl. 1, Fig. 5.

**Location and stratigraphical range:** Dospej (bituminous schist formation, Upper Oligocene-Lower Miocene).

***Persea pliocenica* (Laurent) Kolak.**

2004. Palamarev & Bozukov, p. 134, Pl. 3, Fig. 5.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

***Persea princeps* (Heer) Schimp.**

1961. *Laurus princeps* Heer, Palamarev, p. 183, Pl. 5, Figs 1-2; Fig.-text 15.

**Location and stratigraphical range:** Borovets (coal-bearing formation, Upper Oligocene).

*PISTACIA* L. – ANACARDIACEAE

***Pistacia cf. miocenica* Saporta**

1868. Saporta, p. 52, Pl. 6, Figs 4-6.

2004. Palamarev & Bozukov, p. 137, Pl. 1, Fig. 1.

**Material:** Li.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

**Collection:** IBER (BAS).

*PLATANUS* L. – PLATANACEAE

***Platanus aceroides* Göpp.**

1982. Kitanov, p. 37.

**Rev.:** *Platanus platanifolia* (Ettingsh.) Knobloch; Bozukov, hoc loco.

***Platanus platanifolia* (Ettingsh.) Knobloch**

2008. Bozukov & al., p. 175, Pl. 5, Fig. 1.

1982. *Platanus aceroides* Göpp.; Kitanov, p. 37.

**Location and stratigraphical range:** Valche Pole (Valche Pole Molasse formation, Upper Oligocene – Lower Miocene); Sofia Basin – Zemlyane (Lozenets Formation, Romanian).

*PLUMERIA* L. – APOCYNACEAE***Plumeria cf. caucasica* Avakov**

**Location and stratigraphical range:** Padesh (Padesh Formation, Upper Eocene – Lower Oligocene); Pavelsko (Pavelsko sandy argillaceous Formation, Upper Eocene-Lower Oligocene).

*POPULUS* L. – SALICACEAE***Populus balsamoides* Göpp.**

1932. Konjaroff, p. 54, Pl. 16, Fig. 1; p. 98, Pl. 25, Fig. 3; p. 171, Pl. 57, Fig. 3.

1961. Palamarev, p. 179, Pl. 1, Fig. 4.

**Location and stratigraphical range:** Chukurovo (coal-bearing formation, Middle Miocene).

***Populus canescens* (Aiton) Sm.**

1982. Kitanov, p. 37, Pl. 5, Fig. 4.

**Location and stratigraphical range:** Sofia Basin – Zemlyane (Lozenets Formation, Romanian).

***Populus nigra* L.**

1982. Kitanov, p. 37, Pl. 5, Fig. 3.

**Location and stratigraphical range:** Sofia Basin – Lozenets, Zemlyane (Lozenets Formation, Romanian).

***Populus populina* (Brongn.) Knobloch**

2004. Palamarev & Bozukov, p. 137, Pl. 5, Fig. 2.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

***Populus tremula* L.**

1982. Kitanov, p. 37, Pl. 5, Fig. 2.

**Location and stratigraphical range:** Sofia Basin – Zemlyane (Lozenets Formation, Romanian).

*PRUNUS* L. – ROSACEAE***Prunus fruticosa* Pall. foss.**

2004. Palamarev, p. 7, pl. 1, fig. 10.

**Material:** Ca.

**Location and stratigraphical range:** Varshtets (Limestone tuff, Middle Villafranchian).

**Collection:** IBER (BAS).

*PTEROCARYA* Kunth – JUGLANDACEAE***Pterocarya paradisiaca* (Unger) Iljinsk.**

2004. Palamarev & Bozukov, p. 132, Pl. 4, Fig. 5.

1982. *P. pterocarpa* (Mich.) Kunth; Kitanov, p. 37, Pl. 5, Fig. 1.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian); Sofia Basin – Zemlyane (Lozenets Formation, Romanian).

***Pterocarya pterocarpa* (Michx.) Kunth foss.**

1982. Kitanov, p. 37, Pl. 5, Fig. 1.

**Rev.:** *Pterocarya paradisiaca* (Unger) Iljinsk.; Bozukov, hoc loco.

*PYRACANTHA* M. Roem. – ROSACEAE***Pyracantha coccinea* M. Roem. foss.**

1983. *Pyracantha coccinea* Roem. foss.; Mai, p. 82, pl. 39, fig. 12-15; pl. 40, fig. 11-12; text-fig. 5: 1-25; text-fig. 10: 10-11; text.-fig. 14.

2004. Palamarev, p. 10, pl. 1, fig. 7-9.

**Material:** Ca.

**Location and stratigraphical range:** Varshtets (Limestone tuff, Middle Villafranchian).

**Collection:** IBER (BAS).

*QUERCOXYLON* Kräusel – FAGACEAE***Quercoxylon marbasianum* Hadžiev & Mädel**

1962. Hadžiev & Mädel, p. 112, Pl. 1, Figs 1-4; Pl. 2, Figs 1-5; Fig.-text 1.

**Holotypus:** Pl. 1, Figs 1-4; Pl. 2, Figs 1-5; Fig.-text 1, in Hadžiev & Mädel (1962).

**Material:** Wo.

**Location and stratigraphical range:** East Maritsa basin – Troyanovo West (Maritsa Formation, Lower Pontian – Upper Dacian).

**Collection:** Unknown.

***Quercoxylon stojanovii* Hadžiev & Mädel**

1962. Hadžiev & Mädel, p. 115, Pl. 2, Fig. 6; Pl. 3, Figs 1-5; Fig.-text 2.

**Holotypus:** Pl. 2, Fig. 6; Pl. 3, Figs 1-5; Fig.-text 2, in Hadžiev & Mädel (1962).

**Material:** Wo.

**Location and stratigraphical range:** Sofia Basin – Kutina (Gnilyane Formation, Lower Pontian).

**Collection:** Unknown.

*QUERCUS* L. – FAGACEAE***Quercus abchasica* Kolak. in Iljinskaja**

1980. Iljinskaja, p. 25.

2004. Palamarev & Tsenov, p. 150, Pl. 2, Fig. 4.  
 1964b. *Cyclobalanopsis kryshtofovichii* Kolak.; Palamarev, p. 130, Pl. 1, Fig. 1; Pl. 2, Fig. 4.

1967. Palamarev, p. 93.

**Material:** Li.

**Location and stratigraphical range:** Brezhani (Goreshtitsa Formation, Lower Oligocene); Ognyanovo (Baldevo Formation, Pontian).

**Collection:** IBER (BAS).

#### ***Quercus aff. acrodonta* Seem.**

2011. Bozukov & al., p. 8, Pl. 2, Figs 1-2.

**Material:** Li.

**Location and stratigraphical range:** Beli Breg Coal Basin – Gaber (Novi Iskar Formation, Upper Pontian – Lower Dacian).

**Collection:** IBER (BAS).

#### ***Quercus cardanii* A. Massal.**

1982. *Q. sessiliflora* Salisb. foss.; Kitanov; p. 37.

1982. *Q. hartwissiana* Steven foss.; Kitanov; p. 37.

**Location and stratigraphical range:** Sofia Basin – Zemlyane (Lozenets Formation, Romanian).

#### ***Quercus cerris* L. foss.**

1982. Kitanov, p. 37.

1988. Palamarev & Kitanov, p. 189, Pl. 7, Figs 3-4, 7-8.

**Location and stratigraphical range:** Beli Breg Coal Basin – Gaber (Novi Iskar Formation, Upper Pontian – Lower Dacian); Sofia Basin – Zemlyane (Lozenets Formation, Romanian).

#### ***Quercus coccifera* L. foss.**

1932. Konjarov, p. 125, Pl. 32, Fig. 6; p. 166, Pl. 55, Figs 5-7.

#### ***Quercus drymeja* Unger**

1932. Konjarov, p. 125, Pl. 32, Figs 3-5; p. 166, Pl. 55, Fig. 4.

2004. Palamarev & Tsenov, p. 150, Pl. 2, Fig. 3; Pl. 3, Fig. 3, 4.

2011. Bozukov & al., p. 8, Pl. 2, Fig. 4.

**Material:** Cu, Li.

**Location and stratigraphical range:** Ognyanovo (Baldevo Formation, Pontian); Beli Breg Coal Basin – Gaber (Novi Iskar Formation, Upper Pontian – Lower Dacian).

#### ***Quercus drymeja* Unger**

1967. Palamarev, p. 93.

1998. Palamarev & al., p. 15.

**Rev.:** 2011. *Quercus lonchitis* Unger; Bozukov & al., p. 8.

*Quercus furcinervis* Rossm.

1961. Palamarev, p. 181, Pl. 3, Figs 2-4.

**Rev.:** *Eotrigonobalanus furcinervis* (Rossm.) H. Walther & Kvaček; Bozukov, hoc loco.

#### ***Quercus gigas* Göpp.**

1855. Göppert, p. 16, Pl. 8, Fig. 2.

2011. Bozukov & al., p. 8, Pl. 2, Figs 7-8.

**Material:** Li.

**Location and stratigraphical range:** Beli Breg Coal Basin – Gaber (Novi Iskar Formation, Upper Pontian – Lower Dacian).

**Collection:** IBER (BAS).

*Quercus hartwissiana* Steven foss.

1982. Kitanov; p. 37.

**Rev.:** *Quercus cardanii* A. Massal.; Bozukov, hoc loco.

#### ***Quercus ilex* L. foss.**

2004. Palamarev & Tsenov, p. 150, Pl. 1, Fig. 3.

**Location and stratigraphical range:** Ognyanovo (Baldevo Formation, Pontian).

#### ***Quercus kubinyi* (Kováts ex Ettingsh.) Czecott**

2004. Palamarev & Bozukov, p. 134, Pl. 3, Fig. 2.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

#### ***Quercus licudensis* Knobl. & Velitzelos**

1986. Knobloch & Velitzelos, p. 11, Pl. 3, Figs. 6, 9; Pl. 4, Fig. 1.

2004. Palamarev & Tsenov, p. 148, Pl. 1, Fig. 7.

**Material:** Li.

**Location and stratigraphical range:** Ognyanovo (Baldevo Formation, Pontian).

**Collection:** IBER (BAS).

#### ***Quercus lonchitis* Unger**

1850. Unger, p. 33, Pl. 9, Figs 3-8.

2004. Palamarev & Tsenov, p. 150, Pl. 1, Fig. 4.

1967. *Q. drymeja* Unger, Palamarev, p. 93.

1998. Palamarev & al., p. 15.

**Material:** Li.

**Location and stratigraphical range:** Brezhani (Goreshtitsa Formation, Lower Oligocene); Bobovdol (coal-bearing formation, Upper Oligocene); Ognyanovo (Baldevo Formation, Pontian).

***Quercus lyellii* Heer**

2004. Palamarev & Tsenov, p. 150, Pl. 2, Fig. 2.

2008. Bozukov & al., p. 175, Pl. 5, Fig. 3.

**Location and stratigraphical range:** Valche Pole (Valche Pole Molasse formation, Upper Oligocene – Lower Miocene); Ognyanovo (Baldevo Formation, Pontian).

***Quercus mediterranea* Unger**

2004. Palamarev & Tsenov, p. 149, Pl. 1, Fig. 5.

**Location and stratigraphical range:** Ognyanovo (Baldevo Formation, Pontian).

***Quercus nerifolia* A. Braun**

2004. Palamarev & Tsenov, p. 151.

2004. Palamarev & Bozukov, p. 134, Pl. 4, Fig. 3.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian); Ognyanovo (Baldevo Formation, Pontian).

***Quercus pliovariabilis* Kolak.**

1964. Kolakovskiy, p. 88, Pl. 31, Fig. 1.

2004. Palamarev & Bozukov, p. 134, Pl. 3, Fig. 4.

2004. Palamarev & Tsenov, p. 149, Pl. 2, Fig. 2.

1932. *Castanea atavia* Unger; Konjarov, p. 125, Pl. 32, Fig. 2.

1964a. Palamarev, p. 18.

1999a. *Castanopsis pliovariabilis* (Kolak.) Kolak.; Bozukov, p. 4, Pl. 1, Fig. 5.

**Location and stratigraphical range:** Chukurovo (coal-bearing formation, Middle Miocene); Satovcha (Sivik Formation, Middle Miocene); Oranova (Simitli Formation, Maeotian); Golyam Manastir (Elhovo Formation, Pontian); Ognyanovo (Baldevo Formation, Pontian).

***Quercus pontica-miocaenica* Kubát**

2004. Palamarev & Tsenov, p. 148, Pl. 2, Fig. 1, 6.

**Location and stratigraphical range:** Ognyanovo (Baldevo Formation, Pontian).

**Note:** According to Walther & Zastawniak (1991), *Q. pontica-miocaenica* belongs to *Q. gigas* Göpp.

***Quercus pseudocastanea* Göpp.**

2004. Palamarev & Tsenov, p. 149, Pl. 1, Fig. 1.

**Location and stratigraphical range:** Ognyanovo (Baldevo Formation, Pontian).

***Quercus sessiliflora* foss. auct. non Salisb.**

1982. Kitanov; p. 37.

**Rev.:** *Quercus cardanii* A. Massal.; Bozukov, hoc loco.

***Quercus sosnowskyi* Kolak.**

2004. Palamarev & Tsenov, p. 149, Pl. 1, Fig. 3; Pl. 2, Fig. 5; Pl. 3, Fig. 1, 2.

2011. Bozukov & al., p. 9, Pl. 2, Figs 5-6.

**Material:** Cu, Li.

**Location and stratigraphical range:** Ognyanovo (Baldevo Formation, Pontian); Beli Breg Coal Basin – Gaber (Novi Iskar Formation, Upper Pontian – Lower Dacian).

***RHAMNUS* L. – RHAMNACEAE*****Rhamnus rectinervis* Heer**

2004. Palamarev & Bozukov, p. 137, Pl. 4, Fig. 4.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

***Rhamnus* sp.**

1932. Konjaroff, p. 129, Pl. 43, Figs 4.

**Material:** Li.

**Location and stratigraphical range:** Dospei (bituminous schist formation, Upper Oligocene – Lower Miocene).

**Collection:** Unkown.

***RHUS* L. – ANACARDIACEAE*****Rhus juglandogene* Ettings.**

SAPINDUS Tourn. ex L. – SAPINDACEAE

***Sapindus falcifolius* (A. Braun) A. Braun**

2004. Palamarev & Bozukov, p. 136, Pl. 2, Fig. 3.

2008. Bozukov & al., p. 177, Pl. 5, Fig. 7.

**Location and stratigraphical range:** Valche Pole, Zlatoustovo (Valche Pole molasse formation, Upper Oligocene – Lower Miocene); Golyam Manastir (Elhovo Formation, Pontian).

***Sapindus graecus* Unger**

1867. Unger, p. 73, Pl. 12, Figs 1-23.

2008. Bozukov & al., p. 176, Pl. 3, Fig. 1.

**Material:** Li.

**Location and stratigraphical range:** Zlatoustovo (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

**Collection:** IBER (BAS).

***Sapindus ungeri* Ettingsh.**

1988. Černjavska & al., p. 31.

**Location and stratigraphical range:** Pavelsko (Pavelsko sandy argillaceous formation, Upper Eocene-Lower Oligocene); Borovets (coal-bearing formation, Upper Oligocene).

SASSAFRAS T. Nees – LAURACEAE

***Sassafras ferretianum* A. Massal.**

2008. Bozukov & al., p. 174, Pl. 1, Fig. 7.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

SOPHORA L. – FABACEAE

***Sophora europaea* Unger**

1988. Černjavska & al., p. 31.

2004. Palamarev & Bozukov, p. 135, Pl. 6, Fig. 6.

**Location and stratigraphical range:** Pavelsko (Pavelsko sandy argillaceous formation, Upper Eocene-Lower Oligocene); Golyam Manastir (Elhovo Formation, Pontian).

STEWARTIA L. – THEACEAE

***Stewartia aff. pentagina* L'Her.**

1998. Palamarev & al., p. 15.

**Material:** Li.

**Location and stratigraphical range:** Bobov dol (coal-bearing formation, Upper Oligocene).

**Collection:** IBER (BAS).

STYRAX L. – STYRACACEAE

***Styrax pseudooficinale* Baik. in Kryshtofovich & Baikovskaja**

1965. Kryshtofovich & Baikovskaja, p. 120, Pl. 36, Figs 5, 6; Fig.-text 40.

2004. Palamarev & Bozukov, p. 136, Pl. 2, Fig. 2.

**Material:** Li.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

**Collection:** IBER (BAS).

*SWIDA* Opiz (= *Thelycrania* Endl.)- CORNACEAE

***Swida sanguinea* (L.) Opiz foss.**

2004. Palamarev, p. 11, pl. 1, fig. 11-12.

**Material:** Ca.

**Location and stratigraphical range:** Varshtets (Limestone tuff, Middle Villafranchian).

**Collection:** IBER (BAS).

*SYMPLOCOS* Jacq. – SYMPLOCACEAE

***Symplocos brezanii* Palam.**

**Holotypus:** N B-61, Pl. 4, Fig. 1, in Palamarev & Petkova (1966).

*THEVETIA* Adans. – APOCYNACEAE

***Thevetia sophiae* (C.O. Weber) Palam. & Petkova**

1988. *Echitonium sophiae* C.O. Weber; Černjavska & al., p. 31.

**Location and stratigraphical range:** Oreshets (Layer of massive dark-grey limestone, Priabonian); Suhostrel (Suhostrel Formation, Upper Eocene); Pavelsko (Pavelsko sandy argillaceous formation, Upper Eocene-Lower Oligocene); Braikovitsa (Braikovitsa Laka Formation, Upper Eocene – Lower Oligocene); Momchilovtsi (Sandy argillaceous formation, Lower Oligocene); Leshko, Padash (Padash Formation, Upper Eocene – Lower Oligocene); Strazha (Smolyan Formation, Upper Eocene–Lower Oligocene).

*TREMA* Lour. – ULMACEAE

***Trema aff. micrantha* (L.) Blume**

1998. Palamarev & al., p. 15.

**Material:** Li.

**Location and stratigraphical range:** Bobovdol (coal-bearing formation, Upper Oligocene).

**Collection:** IBER (BAS).

*TRIGONOBALANOPSIS* Kvaček & H. Walther – FAGACEAE

***Trigonobalanopsis rhamnoides* (Rossm.) Kvaček & H. Walther**

2008. Bozukov & al., p. 175, Pl. 5, Fig. 4.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

*ULMUS* L. – ULMACEAE

***Ulmus carpinoides* Göpp.**

1932. Konjaroff, p. 54, Pl. 20, Fig. 6.

*Ulmus longifolia* Unger

1982. Kitanov, p. 37.

**Rev.:** *Ulmus pyramidalis* Göpp.; Bozukov, hoc loco.

***Ulmus pyramidalis* Göpp.**

2004. Palamarev & Bozukov, p. 136, Pl. 3, Fig. 3.

2008. Bozukov & al., p. 175, Pl. 3, Fig. 5.

1982. *U. longifolia* Unger; Kitanov, p. 37.

**Location and stratigraphical range:** Borovets (coal-bearing formation, Upper Oligocene); Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene); Sofia Basin – Lozenets, Zemlyane (Lozenets Formation, Romanian); West Maritsa basin – Merichleri (Merichleri limestone formation, Oligocene).

*VITIS* L. – VITACEAE

***Vitis sylvestris* C.C. Gmel. foss.**

1982. Kitanov, p. 37, Pl. 4, Fig. 2.

**Location and stratigraphical range:** Sofia Basin – Zemlyane (Lozenets Formation, Romanian).

*WISTERIA* Nutt. – FABACEAE

***Wisteria cf. falax* (Nath.) Tanai & Onoe**

1961. Tanai & Onoe, p. 45, Pl. 10, Fig. 6; Pl. 14, Figs 2-4.

2004. Palamarev & Bozukov, p. 135, Pl. 2, Fig. 6.

1967. *Sophora falax* Nath.; Nathorst, p. 58, pars Pl. 10, Figs 11, 12; Pl. 12, Figs 1, 2.

**Material:** Li.

**Location and stratigraphical range:** Golyam Manastir (Elhovo Formation, Pontian).

**Collection:** IBER (BAS).

ZANTHOXYLUM L. – RUTACEAE

**Zanthoxylum juglandinum A. Braun**

1851. A. Braun, p. 87.

2008. Bozukov & al., p. 176, Pl. 4, Fig. 2.

**Material:** Li.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

**Collection:** IBER (BAS).

ZELKOVA Spach – ULMACEAE

**Zelkova carpinifolia (Pall.) K. Koch foss.**

1982. Kitanov, p. 37, Pl. 3, Figs 2-3.

**Rev.:** Zelkova zelkovifolia (Unger) Bůžek & Kotl.; Bozukov, hoc loco.

**Zelkova crenata Spach**

1932. Konjarov, p. 166, Pl. 56, Fig. 2; p. 173, Pl. 58, Fig. 3.

**Rev.:** Zelkova zelkovifolia (Unger) Bůžek & Kotl.; Bozukov, hoc loco.

**Zelkova zelkovifolia (Unger) Bůžek & Kotl.**

2004. Palamarev & Bozukov, p. 136, Pl. 1, Fig. 4.

2008. Bozukov & al., p. 175, Pl. 3, Fig. 2.

1932. Z. crenata Spach; Konjarov, p. 166, Pl. 56, Fig. 2; p. 173, Pl. 58, Fig. 3.

1932. Z. ungeri Kováts; Konjarov, p. 54, Pl. 7; p. 98, Pl. 7; p. 125, Pl. 34, Figs 1-4; p. 129, Pl. 43, Fig. 1.

1982. Z. carpinifolia (Pall.) K. Koch foss.; Kitanov, p. 37, Pl. 3, Figs 2-3.

**Location and stratigraphical range:** Valche Pole (Valche Pole Molasse formation, Upper Oligocene – Lower Miocene); Golyam Manastir (Elhovo Formation, Pontian); Sofia Basin – Zemlyane (Lozenets Formation, Romanian).

## LILIOPSIDA

ARACEAE CARPUM Wendl. – ARACEAE

**Araceaecarpum sp.**

1964b. Palamarev, p. 136, Pl. 10, Fig. 3.

**Material:** Ca.

**Location and stratigraphical range:** Brezhani (Gore-shtitsa Formation, Lower Oligocene).

**Collection:** Unknown.

2008. Bozukov & al., p. 177, Pl. 5, Fig. 9.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

POTAMOGETON L. – POTAMOGETONACEAE

**Potamogeton pectinatus L. foss.**

2011. Bozukov & al., p. 12, Pl. 3, Figs 8-9.

**Rev.:** Ceratophyllum submersum L. foss.; Bozukov & al. (2012).

SABAL Adans. – ARECACEAE

**Sabal sp.**

1932. Konjarov, p. 222.

**Material:** Li.

**Location and stratigraphical range:** Merichleri (Merichleri limestone formation, Oligocene).

**Collection:** Unknown.

SMILAX L. – SMILACACEAE

**Smilax weberi P. Wessel**

1932. Smilax sp., Konjarov, p. 222, Pl. 65, Fig. 3.

PALMOPHYLLUM Conw. – ARECACEAE

**Palmophyllum sp.**

**Location and stratigraphical range:** Merichleri (Merichleri limestone formation, Oligocene).

**Collection:** Unknown.

*Smilax* sp.

1932. Konjarov, p. 222, Pl. 65, Fig. 3.

**Rev.:** *Smilax weberi* P. Wessel; Bozukov, hoc loco.

*TRACHYCARPUS* Wendl. – ARECACEAE

***Trachycarpus rhipifolia* (Sternb.) Takht.**

1988. Černjavska & al., p. 31.

TYPHAL. – TYPHACEAE

***Typha latissima* A. Braun ex Heer**

1982. *T. latifolia* L. foss.; Kitanov, p. 37, Pl. 1.

**Location and stratigraphical range:** Borovets (coal-bearing formation, Upper Oligocene); Sofia Basin – Zemlyane (Lozenets Formation, Romanian).

***Typha* sp.**

2008. Bozukov & al., p. 177, Pl. 5, Fig. 6.

**Material:** Li.

**Location and stratigraphical range:** Valche Pole (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

**Collection:** IBER (BAS).

## INCERTAE SEDIS

***Macclintockia basinervis* (Rossm.) Knobloch**

2008. Bozukov & al., p. 177, Pl. 5, Fig. 6.

**Location and stratigraphical range:** Valche Pole,

Zlatoustovo (Valche Pole molasse formation, Upper Oligocene – Lower Miocene).

**Collection:** IBER (BAS).
